New Bachelor in Computer Science Management

The computer room

The University has introduced a new Bachelor in Computer Science Management this year. The program is designed for high school graduates interested in pursuing careers in information systems programming and IT management. The program covers all key aspects of systems analysis, design, implementation, testing, deployment as well as IT service, security and project management. The program explores business and technology trends and how information technology add value to businesses. Students are learning in a dynamic environment with a multicultural student body and faculty drawn from academia and the business community.
